

## Local Colorado Ordinances that Prohibit Smoking or Vaping Marijuana

Many communities have passed ordinances regulating smoking in public places or workplaces in Colorado. Some were passed before the most recent update to the [Colorado Clean Indoor Air Act \(CCIAA\)](#) update in 2019, but most of these local laws were enacted before then. The CCIAA allows communities to pass local laws that are stronger than the state law. The CCIAA provisions that are stronger than the local law apply if the local law is weaker. For example, some local ordinances may only apply to government buildings, parks, or other public places. The CCIAA would apply to all public places and workplaces in those communities.

GASP of Colorado recently reviewed and updated the local ordinances that were passed previously that prohibit smoking within certain public places or workplaces. Some have also added any electronic smoking device. These updates of local Colorado laws that regulate smoking are posted [on GASP's website](#).

GASP's review found that marijuana smoking and sometimes vaping is prohibited in more than 50 local ordinances because of the way they define the act of smoking. Some of the ordinances use the term "any type of smoking" or "any lighted smoking instrument." Some ordinances prohibit "using any form of tobacco or other combustible substance in any form" or "any other plant or weed." In GASP's opinion, these laws and policies that limit marijuana smoking or vaping would apply unless a community changes them. The following 54 local ordinances, which are all posted on the GASP [website](#), address limits on marijuana smoking or vaping in public places and /or workplaces. Based on how they define smoking.
